

# CONTAINER DOOR STRAP

CODE: U0102

The Container Door Strap is a handy safety tool designed to make opening container doors safer and easier. It measures 50mm wide by 600mm long and has a solid 2500kg lashing capacity. With a strong hook and keeper, it helps hold the doors steady and reduces the risk of sudden swings or shifting loads when you open them. A simple, practical addition to any container operation.
