

V-LASH REPLACEMENT STRAPS

A strong frustration often expressed by transport operators is the time it takes to thread straps through buckles, and the fraying that shortens a strap's life. Traditional strap ends often catch, bunch up, or wear out too quickly. Each V-Lash strap features a precision tapered V-cut, which guides the strap smoothly through ratchets and buckles. This clever design cuts threading time by up to 50% and reduces fraying for longer strap life. In short, it's faster to use and lasts longer.

Key Features

- Cuts threading time in half - 50% faster
- Tapered edge glides through buckles
- Reduces fraying on ratchet strap edge
- Colour-coded according to length
- Includes printing on the Strap to indicate which way to roll up to ensure correct orientation of Hook & Keeper.

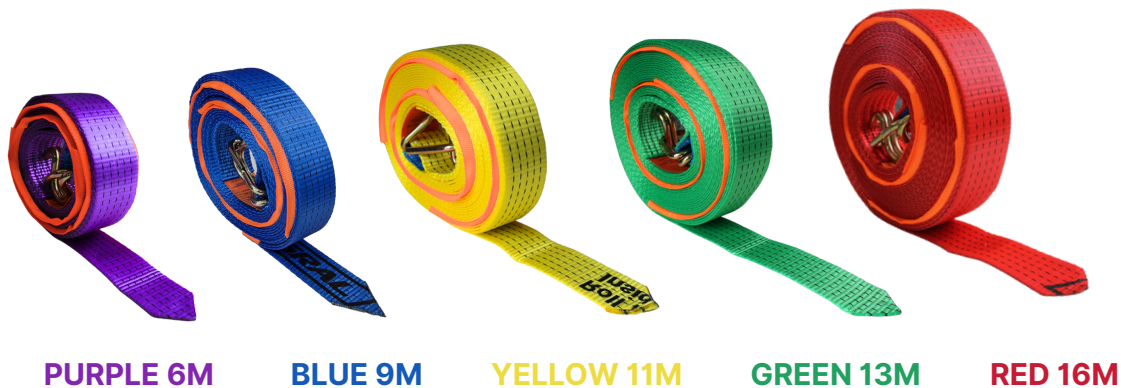

V-LASH WEBBING STRAPS

Colour-Coded Replacement Straps

In high-pressure loading environments, every second counts. Drivers told us how frustrating it is to dig through a tangle of identical straps, trying to figure out which one is the right length for the job. It's a small issue that causes real delays, costing time, money, and patience. So, we listened and the v-lash ratchet strap was made.

Tegral's new V-Lash Colour-Coded Webbing Straps solve that issue at a glance. Each strap length is assigned a distinct colour, so you can identify the right one instantly.

V-LASH WEBBING STRAPS

Product Specifications

Product Code	Colour	Length	Width	Lashing Capacity	End Fitting	Webbing End	Material
S0013-V	Purple	6m	50mm	2500kg	Hook & Keeper	V-Lash	Industrial Polyester Webbing
S0014-V	Blue	9m	50mm	2500kg	Hook & Keeper	V-Lash	Industrial Polyester Webbing
S0015-V	Yellow	11m	50mm	2500kg	Hook & Keeper	V-Lash	Industrial Polyester Webbing
S0016-V	Green	13m	50mm	2500kg	Hook & Keeper	V-Lash	Industrial Polyester Webbing
S0017-V	Red	16m	50mm	2500kg	Hook & Keeper	V-Lash	Industrial Polyester Webbing

- Built to meet AS/NZS 4380:2001 standards - Compliant straps for your fleet
- Strong lashing capacity, rated at 2500kg
- Includes printing 'Roll to Inside' on the strap to indicate which way to roll up to ensure correct orientation of Hook and Keeper. Makes rolling up straps easier.
- 50mm Wide Industrial Strength Webbing
- Protective Sleeves Included – Each replacement strap features two protective sleeves for extended lifespan of the strap.
