

# GOOD-N-TIGHT RATCHET TIGHTENER

CODE: TT0071

## Secure, Reliable, and Easy to Use

The Good-n-Tight Ratchet Tightener minimises the risk of load shift from poorly restrained straps. The ergonomic handle design reduces strain on operators shoulders and arms, making strap tightening much easier and reducing the risk of long-term injuries.

The Good-n-Tight provides a 3x mechanical advantage, making tensioning ratches easier and less of a chore for operators. It suits most 50mm, 75mm and 100mm Ratchets. It is designed to withstand harsh weather conditions with heavy duty plastic, rust-resistant and corrosion-proof properties, making it perfect for outdoor use.
